

# EMPLOYEE SPOTLIGHT

**Kunal Baxi**  
IT Specialist

“ I like to treat everyone as a potential mentor because there’s something to be learned from everyone. ”

Kunal Baxi

## About Kunal

I was born in India. I am married and recently moved to San Antonio. I have a PhD in Molecular Genetics. In my spare time I really enjoy playing tennis and reading both fiction and non-fiction books. My first day at Entrust was February 22nd.

## How did you come to work at ENTRUST?

I moved to San Antonio to be with my wife and her family, and I wanted to apply my experience in IT (from Canada) in an IT environment here in the US.

## What do you enjoy most about your job?

I really enjoy helping people with their tech problems.

## What are some things you’ve learned since working at ENTRUST?

Since starting at Entrust, I’ve learned a fair bit about Entrust’s ticketing system, about email servers as well as domain controllers.

## Do you have any Mentors?

I like to treat everyone as a potential mentor because there’s something to be learned from everyone.

## What motivates you?

I like learning about new things/processes – doesn’t matter what sort of job I have worked at, I have always learned something new, or found a new way to look at an old problem.

## What are you most proud of?

I am proud of my good sense of humor, my work ethics and my ability to resolve complex problems through patience and logic.
